

AMENDMENTS TO THE CLAIMS

The following Listing of Claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-15 (canceled)

Claim 16 (currently amended): ~~A luminous container for identifying objects in the dark comprising:~~

a transparent container body to support one or more objects for containing spectacles; and

a backing plate for supporting spectacles contained within the container body; wherein the backing plate is provided with a luminous surface on or in the container, wherein, in use, said luminous surface glows that is adapted to glow in the dark identifying to permit identification of spectacles supported by the backing plate and contained within the container and/or the or each object body in the dark.

Claim 17 (currently amended): ~~A container according to claim 16, which is comprising:~~

a container body in the form of a wallet of transparent material for containing one or more objects, said luminous surface being provided on; and

a backing plate contained in the wallet for supporting the one or more objects contained within the wallet;

wherein the backing plate is provided with a luminous surface that is adapted to glow in the dark to permit identification of the one or more objects supported by the backing plate and contained within the wallet in the dark.

Claim 18 (canceled)

Claim 19 (withdrawn-currently amended): A container according to claim 16, ~~which comprising:~~

a transparent container body for containing one or more objects; and
a backing plate for supporting the one or more objects contained within the
transparent container body;

~~wherein the container is in the form of a plate having body has~~ an elasticated free edge supporting a peripheral skirt, ~~and wherein the plate supports the luminous surface,~~
~~said object being locatable~~ one or more objects are adapted to be contained in a pocket formed by said skirt and the backing plate.

Claim 20 (canceled)

Claim 21 (withdrawn-currently amended): ~~A~~The container according to claim 16 ~~19, which wherein the comprises a case for an object, which case comprises a luminous surface on or in the case, and on one or more sides of the case an elasticated free edge forming forms~~ an expandable aperture, ~~said object~~ one or more objects being insertable into and withdrawable from said ~~case~~ container body through said aperture.

Claim 22 (currently amended): ~~A~~The container according to claim 16, wherein the container body is formed from a transparent plastic material.

Claim 23 (withdrawn-currently amended): ~~A~~The container according to claim 16, wherein the container is a bedside container.

Claim 24 (withdrawn-currently amended): ~~A~~The container according to claim 16, wherein ~~the luminous surface comprises~~ glow in the dark paint is provided on one or more surfaces of the container to provide an additional luminous surface.

Claim 25 (withdrawn-currently amended): ~~A~~The container according to claim 16, wherein ~~the luminous surface comprises a luminous backing plate~~ is separate from the container body and is contained within the container body.

Claim 26 (currently amended): ~~A~~The container according to claim ~~25~~ 24 wherein the backing plate is a transparent plastic backing plate having glow in the dark paint on one or more surfaces thereof.

Claim 27 (withdrawn-currently amended): ~~A~~The container according to claim 19, wherein the elasticated free edge comprises polyvinylchloride (PVC) elasticated by an elastic band.

Claim 28 (currently amended): ~~A~~The container according to claim 16, wherein in use ~~the object to be identified, or an outlined thereof, is~~ spectacles contained within the container body are rendered visible in the dark by the luminous surface.

Claim 29 (currently amended): Use of a luminous container according to claim 16, to enable ~~location identification of an object~~ spectacles contained within the container body in the dark.

Claim 30 (new): The container according to claim 17, wherein the wallet comprises an envelope having a flap adapted to fold open and to close and thereby open and close an envelope aperture, respectively.

Claim 31 (new): The container according to claim 30 further comprising mating popper components for releasably securing the flap to the envelope.
